Dr. C.V. Raman University, Khandwa

A note from the Vice Chancellor

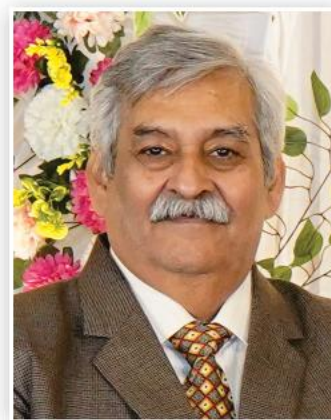

AISECT, the parent body of Dr. C.V. Raman University (Khandwa), is well known for its skill based education at national level. The teaching and learning methodology is slightly different at Dr. C.V. Raman University (Khandwa) as compared to other education groups. There are many skill academies functioning under the teaching department, who guarantee skill delivery with much importance given to hands on expertise.

Dr. Arun Joshi

Vice-Chancellor,
Dr. C.V. Raman University, Khandwa

A note from the Registrar

One of the critical decisions by any parent, guardian or student would be to select the right college, institute, or university for furthering higher education, the decision in most cases depends on the scores secured in the senior secondary school, entrance examinations attempted, and or ranks obtained, before the personal choice of the subject. What we do not considered in this decision making is future career goals of the students, seldom any student take a cognitive decision on the career options available and falls prey to rat race. The situation further worsens when lucrative advertisements, discounts on fee, false promises made by the institutions lure the students.
