A part of **aisectindia** Khandwa, Madhya Pradesh

Internal Smart India Hackathon 2026

About the Event

Dr. C. V. Raman University, Khandwa is organizing the Internal Smart India Hackathon 2026, an initiative focused on encouraging innovation, creativity, collaboration, and problem-solving among students.

The event provides an opportunity for participants to come together, develop innovative ideas, work collaboratively, and create technology-driven solutions to real-world challenges. Participants will be encouraged to think creatively, identify meaningful problems, and develop solutions that can contribute towards building a Smarter and Better India.

Event Theme

Participants are encouraged to bring forward their innovative ideas, collaborate with fellow students, and work towards developing practical solutions with the potential to create a positive impact.
